Pebble In The Jungle

In the dense jungle, a small _____ lay unnoticed on the ground.

The _____ was smooth and round, shaped by years of water flow.

A curious monkey picked up the _____ and examined it closely.

He tossed the _____ into the air and caught it again.

A parrot, perched on a branch, watched the _____ fly through the air.

The _____ landed in a stream and was carried away by the current.

A fish saw the _____ and swam around it, curious about the new object.

The _____ was carried downstream and landed on the riverbank.

A turtle found the _____ and decided to make it a part of its home.

The _____ was now a part of the jungle, touched by many creatures.

The _____ had traveled far and seen much of the jungle.

And so, the _____ remained, a silent witness to the life in the jungle.
