Dino'S Space Adventure

Once upon a time, in a small town lived a little dinosaur named Dino. Dino was not like other dinosaurs. He had a big dream. He wanted to go to space. Every night, he would look up at the stars and wonder what it would be like to be up there. One day, Dino found an ancient map in his backyard. The map showed a path to a hidden spaceship in the old ruins outside the town. Dino was excited. He packed his bag and set off on an adventure. After a long journey, Dino finally found the spaceship. It was big and shiny. Dino climbed into the spaceship and found a big red button. He pressed it and the spaceship started to shake. Dino was scared but he remembered his dream. He closed his eyes and held on tight. Suddenly, the shaking stopped. Dino opened his eyes and saw the stars up close. He was in space! Dino was happy. He saw the Earth, the Moon, and the other planets. He even saw a shooting star. After a while, Dino decided to go back home. He pressed the big red button again and the spaceship started to shake. Soon, Dino was back in his town. He was a little dinosaur with a big story to tell. From that day on, Dino was not just a dinosaur. He was Dino, the space explorer. And every night, when Dino looked up at the stars, he knew that dreams do come true.

What is the name of the dinosaur?

What did Dino find in his backyard?

Where was the spaceship hidden?

What did Dino see in space?

What did Dino become after his space adventure?
