Forest School Adventure

In the future, a special school was built in the heart of a forest. This was no ordinary school, it was a school where children learned about nature. The school was called "Forest School". Every day, the children would gather in the forest, ready for a new adventure. One day, their teacher, Miss Maple, announced, "Today, we will have a race to find the oldest tree in the forest!" The children were excited. They split into teams and started their search. The forest was full of life. Birds were singing, squirrels were scampering, and the wind was whispering through the leaves. The children explored, climbed trees, and even found a hidden waterfall. After a long search, one team found a giant tree. It was so tall that its top touched the sky. Its bark was thick and rough, a sign of its age. The children were amazed. They had learned that the oldest trees in the forest are the wisest and have many stories to tell. They felt proud of their discovery and couldn't wait to share it with Miss Maple. The day ended with laughter and stories around a campfire. The children learned a lot about nature and had an unforgettable adventure in the forest school.

Who is the teacher at the Forest School?

What was the task for the day?

Where was the school located?

What did the children find during their search?

What did the children learn about the oldest trees?

How did the day end?
